HIGH SCHOOL NEWS

The new moving picture machine which was ordered earlier in the year by Superintendent Park, for the high school, arrived yesterday and is being set up by the class in manual training. The machine is as good as could be wished and should serve the double purpose of providing education and amusement for everyone. It is proposed to have moving picture shows several times a week besides using the machine in helping other entertainments along. It is also proposed to show only the best of pictures. It is hoped in this way to bring the best of entertainments right to the students and in that way make the school the social center for them.

GERMAN PRISONERS CARRY BRITISH WOUNDED FROM BATTLEFIELD

GERMAN PRISONERS CARRYING WOUNDED BRITISH OFFICER.

Getting the wounded from the battlefield is one of the most difficult problems in modern warfare. The British have partially solved the question by putting the prisoners at this work. This picture shows captured Germans carrying a wounded English officer from a battlefield "somewhere in France."

GERMAN ATTACK ON SOUTH SOMME FAILS

Teutons Are Driven Back With Heavy Losses—Announced That Germans Have Assaulted Whole Carpathian Front.

PARIS, Oct. 19.—It is announced the Germans started a terrific attack south of the Somme at five this morning. A few detachments reached the French trenches but all were killed or captured. Screen fire checked a second assault.

German assaults south of the Somme followed three heavy unsuccessful attacks north of the river late last night. The Germans attempted to cut the French from Bally-Sailliel, but the French maintained their position. French detachments entered enemy trenches south of Amiens and southeast of Rheims.

LONDON, Oct. 19.—Halg reported the British progressed between the Albert-Bapaume road and Lesboeufs despite rain. They took prisoners.

BUCHAREST, Oct. 19.—It is announced the Germans attacked on the whole Carpathian front. Headquarters dispatches are reassuring. The Rumanians resumed the offensive and south of Kronstadt drove the enemy to the Transylvanian slope.

NOTED DOCTOR RACCOUS GIRL OF BLACKMAIL

DR. C. A. REED.

CINCINNATI, Oct. 19.—The arrest of Miss Margaret Gorey, a trained nurse, charged with blackmail, in the office of Dr. C. A. Reed, a prominent physician here, has revealed a series of attempts to obtain a confession from Miss Gorey by means of the telephone. One of these attempts was successful, according to the police.

In a statement, directly following the arrest, Dr. Reed said Miss Gorey had sought employment from him. She had been refused, and following repeated attempts to induce him to employ her, she said, she had threatened to bring a suit against him on a charge of immoral conduct.

Dr. Reed stated that Miss Gorey had confessed, while the police were on the other end of the telephone device and were listening to the entire conversation. He said he knew the charge to be false, but that she knew he could not prove it was false.

The doctor said she offered to settle for \$20,000. Otherwise, he said, she demanded \$25,000 in case she was forced to begin suit.

She is a relative of a prominent Newport, Ky., clergyman. Dr. Reed is a former president of the American Medical Association and a close friend of ex-President Taft.

KING ALFONSO VISITS SAN SEBASTIAN SECRETLY

PARIS, Oct. 19.—King Alfonso's arrival at San Sebastian, Spain, caused considerable speculation. The king's visit coincides with the arrival of the Spanish ambassadors to France, Russia and Italy. Other foreign diplomats are gathering at San Sebastian. Diplomatic circles here profess ignorance of the reasons for the meeting.

MENACE OF U BOATS BIG, SAYS INVENTOR

BRIDGEPORT, Conn., Oct. 19.—"A submarine boat 175 feet long is of sufficient size to carry supplies to last

SCROFULA AND ALL HUMORS GIVE WAY

There are many things learned from experience and observation that the older generation should impress upon the younger. Among them is the fact that scrofula and other humors are most successfully treated with Hood's Sarsaparilla. This great medicine is a peculiar combination of remarkably effective blood-purifying and health-giving roots, herbs and herbs, and has been tested for forty years. Get it today.

three months," declared Simon Lake, inventor of the even keel submarine of which the U-53 is a type, "provided the undersea craft does not travel at high speed during that period."

"In fact," continued Mr. Lake, "a submarine like the U-53, or like the ones the Lake Torpedo Boat Company is building for the United States government, could remain off the coast of the United States, establishing a blockade of enemy shipping, indefinitely, depending only on the endurance of the crew, and I don't see where it would be any hardship on the crew. I with a crew of five remained five months aboard a submarine without entailing any hardships. The boat can remain submerged during the day, coming up at night for air and to recharge its batteries."

"It would be no surprise to me if the German U-boats established a blockade of enemy shipping at the entrance to Delaware Bay, Chesapeake Bay and Sandy Hook and Boston harbor. They could carry enough food to last six months and fuel for three months."

"Points like the Deutschland could be in wait for a period of a year and catch nearly every vessel that left our ports."

How Catarrh Is Contracted.
Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucous membrane at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted. A little foresight, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere.—Adv.

MAY CHANGE THE 10 COMMANDMENTS

ST. LOUIS, Oct. 18.—The Episcopal convention is considering missions and ten commandments alterations are scheduled to come before the convention today. The new tentative revision of the commandments changes the second, third, fourth, fifth, ninth and tenth. It eliminates all words of explanation and argument. Supporters hold that such phrases are superfluous. They contend they also appear in the Litany and should not be duplicated.

When You Take Cold.
With the average man a cold is a serious matter and should not be trifled with, as some of the most dangerous diseases start with a common cold. Take Chamberlain's Cough Remedy and get rid of your cold as quickly as possible. You are not experimenting when you use this remedy as it has been in use for many years and has an established reputation. It contains no opium or other narcotic. Obtainable everywhere.—Adv.
